

WHAT THE COMPUTER CRIMES ARE?

Computer Crimes

Alternatively referred to as cyber crime, e-crime, electronic crime, or hi-tech crime. Computer crime is an act performed by a knowledgeable computer user, sometimes referred to as a hacker that illegally browses or steals a company's or individual's private information. In some cases, this person or group of individuals may be malicious and destroy or otherwise corrupt the computer or data files

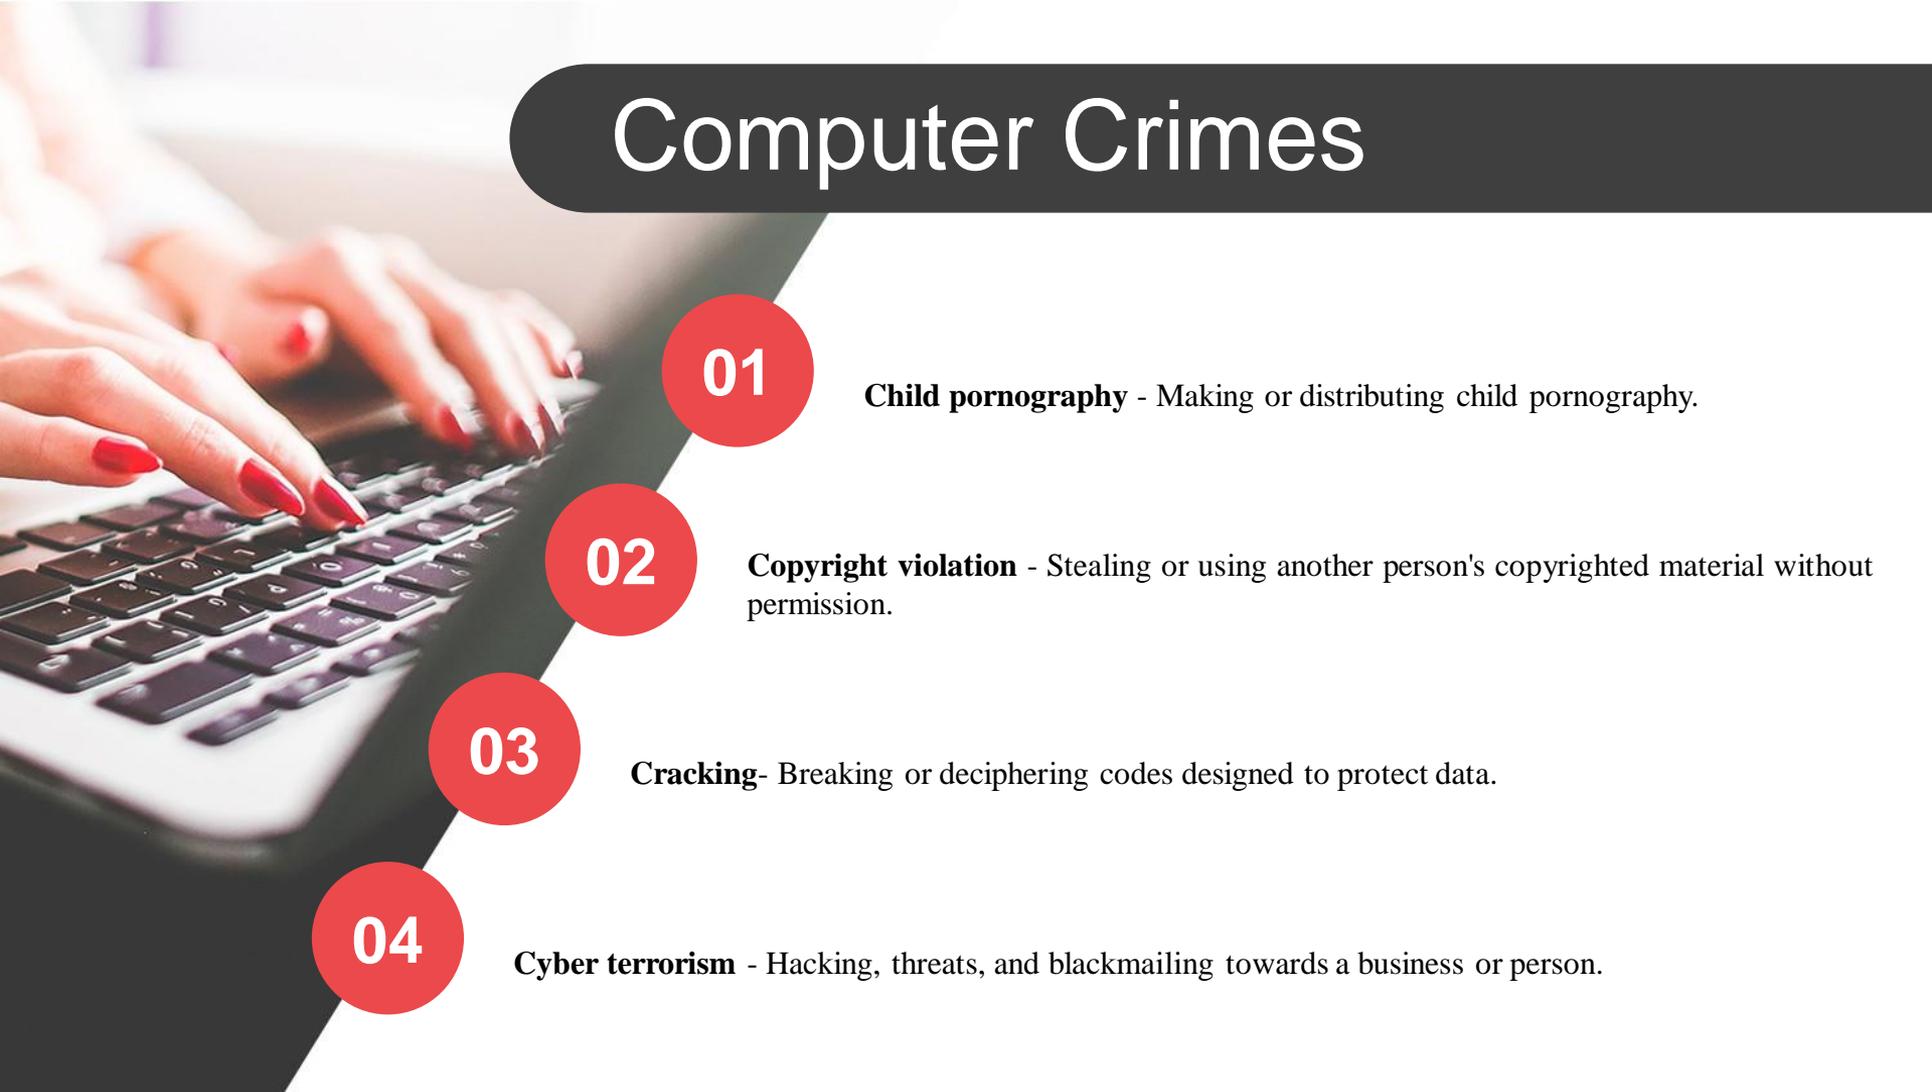

Examples of computer crimes

A close-up, shallow depth-of-field photograph of a person's hands typing on a laptop keyboard. The background is blurred, showing what appears to be a laptop screen and other parts of the desk. A semi-transparent white circle is overlaid in the center, containing the text 'Thank you'. To the right of the circle, there are three red circles of varying sizes, arranged in a cluster.

Thank you
